

In order to use PayPal, you will need to have an account set up and verified. Below are the steps to take to verify your new PayPal account.

Log into your account and click on the Unverified button.

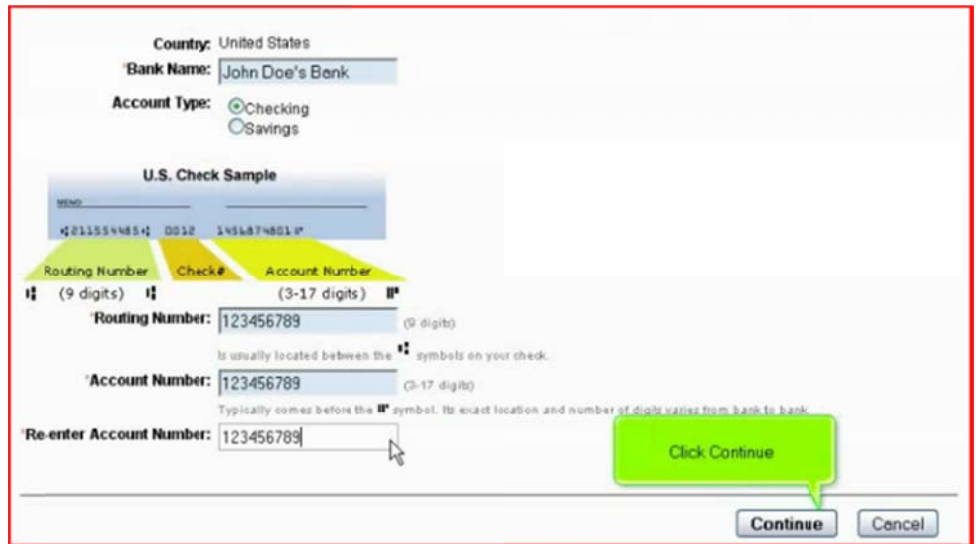

You can verify your account by adding in a bank account or by applying for the PayPal Plus credit card.

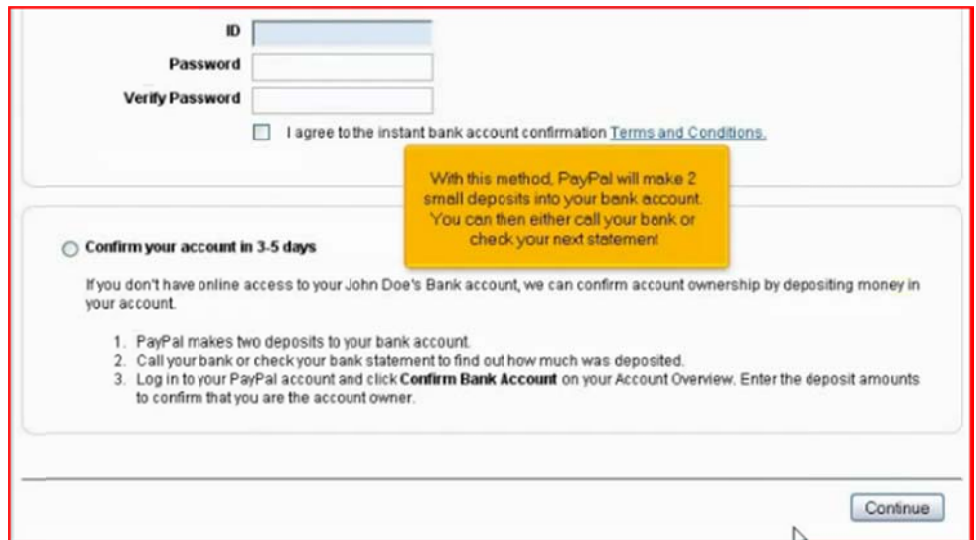

Click on the Add Bank button to get started.

Enter in your bank name, if it's a checking or savings account, the bank routing number, and your account number and click Continue.

If you have online banking, you may enter in your ID and password and instantly verify the account. If you'd prefer, you can confirm your account by having PayPal make two small deposits into your account. Choose your option and click Continue.

Within 3-5 days you will find that you have the deposits from PayPal. Once you have received them, write down the amounts and log into your PayPal account.

Confirm your bank account to ensure transfers from your bank.

PayPal made two small deposits (less than \$1.00) to your bank account for a security measure.

How to Complete Bank Confirmation

1. Wait for 3-5 days for the deposits to appear in your bank account

2. Look up the amounts online, by phone or on your bank statement.

3. Enter the two deposit amounts after logging in to PayPal.

Why Secure?

By completing this process, you confirm you own this bank account. Only you can know what amount has been deposited into your account by PayPal.

What can I do now?

You can **withdraw funds** from your PayPal account to your bank while waiting to complete the process.

Why do I need to confirm my bank account?

- Make instant payments funded from your bank account
- Transfer funds from your bank account to your PayPal account.
- Become Verified and remove sending and withdrawal limits.

PayPal has now made 2 small deposits to your bank account. It will take about 3-5 days for these deposits to appear
